the space contain. Primary purpose of relocation is to increase EMA storage space. Secondary purpose is for more efficient EMA operation. The Mayor questioned if the move can be financially justified. A member of the engineering firm engaged by the City of Huntingburg discussed the fact that by assigning 18% of the building cost to EMA project, there would be approximately $250,000 of additional cost which would result from inclusion of EMA in the building plan, and there is an assumption that approximately $70,000 of that amount could be eliminated from overall cost. Overhead expenses of the occupancy would be covered by a lease with annual rental, which would be for a minimal amount. Parking availability was also discussed. EMA Director Humbert expressed the need of her Department for the additional space. Council member Hunefeld stated that the County Council will later this month consider a prior commitment to appropriate an additional $200,000 to the EMA relocation project.

On motion made and seconded, the Commissioners adopted a resolution to relocate the EMA Office to the Huntingburg location, subject to the appropriation of funds by the County Council.

Jerry Hunefeld, Michael Kluesner and Craig Greulich will serve on the planning committee for this project.
