UPDATED: COVID-19 Situation Report and Guidance

As of May 10, at 8 a.m., Dubois County Health Department confirms that three more positive cases of novel coronavirus (COVID-19) have been identified. This brings the total to **45 positive cases** of COVID-19 in Dubois County residents.

We are working closely with Indiana State Department of Health and local officials to ensure that close contacts of the patients are identified and monitored. Everyone who may have an exposure risk to these positives cases are being notified about potential exposures so that appropriate infection control procedures can be followed. The positive cases are in isolation.

Total Positive Cases	New Positives	Recovered*	Deaths
45	3	24	0

*A person out of isolation and reporting feeling well.

As Dubois County businesses begin to open up a little more this week under Governor Eric Holcomb's Phase 2, the Dubois County Health Department wants to remind all of critical factors during the next few weeks. It is still highly recommended that all wear a cloth face covering when in public settings. Make sure you are washing your hands often and disinfect frequently touched surfaces. As always, remain social distancing. Stay home when feeling ill, except to seek medical care. Separate yourself from other people and pets in your home if you are sick. Call ahead before arriving to the medical clinic. Take precautions to keep yourself and others safe. The key to advancing to each phase is everyone adhering to these recommendations. #BackOnTrack #TogetherWeThrive
