**UPDATED: COVID-19 Situation Report and Guidance**

As of May 28, at 8 a.m., Dubois County Health Department confirms that 4 more positive cases of novel coronavirus (COVID-19) have been identified. This brings the total to **188 positive cases** of COVID-19 in Dubois County residents.

We are working closely with Indiana State Department of Health and local officials to ensure that close contacts of the patients are identified and monitored. Everyone who may have an exposure risk to these positive cases are being notified about potential exposures so that appropriate infection control procedures can be followed. The positive cases are in isolation.

Total Positive Cases	New Positives	Recovered*	Deaths	Approx. Total Tested
<b>188</b>	<b>4</b>	<b>60</b>	<b>3</b>	<b>1303</b>

\*A person out of isolation and reporting feeling well.

We have changes regarding two previously reported cases. One case had been reported twice due to having 2 positive results for 1 person that resulted in duplicate entries. Another due to a change of jurisdiction, meaning that a positive case's county of residence was verified, and positive case did not live in Dubois County.

The approximate total tested number, that has been added to above, comes from the Indiana COVID-19 Dashboard at <https://www.coronavirus.in.gov>.
