UPDATED: COVID-19 Situation Report and Guidance

As of June 12, at 8 a.m., Dubois County Health Department confirms that **3** more positive cases of novel coronavirus (COVID-19) have been identified. This brings the total to **236 positive cases** of COVID-19 in Dubois County residents.

We are working closely with Indiana State Department of Health and local officials to ensure that close contacts of the patients are identified and monitored. Everyone who may have an exposure risk to these positive cases are being notified about potential exposures so that appropriate infection control procedures can be followed. The positive cases are in isolation.

Total Positive Cases	New Positives	Recovered*	Deaths	Approx. Total Tested
236	3	173	4	1897

*A person out of isolation and reporting feeling well.

With warmer weather and Stage 4 of the Back On Track Indiana Plan beginning today June 12, the Dubois County Health Department wants to continue to stress the importance of social distancing, wearing a mask, and proper hand hygiene. While we are optimistic about opening more, guidelines must continue to be followed to prevent the spread of this virus.

Important things to remember is that Centers for Disease Control guidelines for social distancing remain in effect even in larger groups. Masks and/or facial coverings need to be worn correctly to be effective. Masks should cover mouth AND nose. If everyone does their part to slow the spread, we can keep our communities safe. We are all in this together, the choices we make will shape the days and months ahead of us. #BackOnTrack #TogetherWeThrive #InThisTogether
