DUBOIS COUNTY PUBLIC HEALTH RESPONSE

Dubois County has no confirmed COVID-19 cases at this time. However, this could change quickly and we must be prepared. Dubois County has established a County Wide Planning Committee for this Public Health Emergency Response.

The following agencies in Dubois County are working jointly together on a daily basis to take proactive measures to reduce the potential to acquire or spread the virus in our community.

Dubois County Health Department
Memorial Hospital and Health Care Center
Dubois County Emergency Management Agency
Dubois County Sheriff's Department
Dubois County School Corporation
Holy Trinity School Corporation
VUJC
City of Huntingburg
City of Jasper
Town of Ferdinand

The safety health and wellness of our community is our mission. We will provide daily situational updates to the community after our ISDH weekly webinars at 11 AM. The County Wide Planning Committee will report off to each other via conference call as well.

Citizens of Dubois County are encouraged to follow the guidance and recommendations from the Governor Holcomb and Indiana State Department of Health. People with symptoms of fever, cough and shortness of breath should call your doctor's office or the Emergency Department before you arrive and tell them about your recent travels along with your symptoms.

The most important thing you can do right now is educate yourself about the virus. More information may be found at the Indiana State Department of Health or CDC websites that are linked to the Dubois County Health Department homepage. For the most up to date local information, please visit our county website at https://www.duboiscountyin.org/departments/health_department/index.php
