Together we thrive!

COVID-19 prepared

Re-open Dubois County supported by woodspringing.co.
JUNTOS
SALDREMOS
ADELANTE!
ESTAMOS PREPARADOS ANTE EL COVID-19

La reapertura del condado Dubois es respaldada por woodsprinting co.
To All Dubois County Businesses:

The Covid-19 pandemic is a challenge unlike anything we've ever experienced. The response to this virus by local, state and federal officials to counter the spread of the virus has been unprecedented. The requests to shut the doors of businesses of all sizes was one that was not made lightly. We know this was a hardship on all of you, but your willingness to comply has helped counteract the spread of this virus throughout Dubois County.

Because of your actions, Dubois County has positioned itself to re-open under the guidelines of the State of Indiana. While it’s true this re-opening will be slow and deliberate, the Re-Open Dubois County Task Force was created to help lead the way. This task force has developed a comprehensive community initiative, known as Together We Thrive, to address challenges impacting our cities and the county as a whole. Supporting local is always an important cause, but never more than now. We are all in this together, and together we will thrive again.

Please let the enclosed packet act as the starting point to assist your business in re-opening. It is to be understood that Dubois County will follow the direction of the State of Indiana and Governor Holcomb’s orders on re-opening. The work and direction of the Re-open Dubois County Task Force will evolve as conditions improve and as resources become available. Depending on the direction from state and local health department officials – indicators may dictate a lengthening or even a regression to more stringent guidelines. The suggestions and recommendations are simply that - - they do not encompass every industry, but rather represent a robust starting point for how general businesses can operate again safely, while protecting employees and customers.

In support of this initiative, we ask that all businesses put the enclosed window sticker in the entrance of their business to show your customers you are prepared and doing everything in your power to keep them safe.

Together We Thrive,

Mayor Dean Vonderheide – City of Jasper

Mayor Denny Spinner – City of Huntingburg

Chris James – Town of Ferdinand

Chad Blessinger – Dubois County Commissioner
TOGETHER WE THRIVE!

COVID-19 PREPARED

BACK ON TRACK INDIANA

GOVERNOR HOLCOMB’S ROADMAP TO SAFELY RE-OPEN INDIANA

Boating allowed
Resumption of K-12 activities to be determined
TOGETHER WE THRIVE!

COVID-19 PREPARED

RE-OPEN DUBOIS COUNTY SUPPORTED BY woodspringing co.
In this packet you will find best practices for re-opening your business. The best practices listed within are not mandates, rather data-driven recommendations that will help keep you, your staff & your customers safe.

The heart of returning to work is the workforce. The need to plan ahead is not limited to the initial transition back to work, but rather includes preparing for likely employee relations scenarios that will arise after returning to work. While some of these employee relations issues may be unique to COVID-19, others will not be novel, but how an employer needs to respond very well may be. Assessment of current policies and practices should be reviewed to ensure they meet the needs of the workforce and business during this transition back to work, along with the creation of new policies. In particular, development of a protocol to limit the spread of COVID-19 and how to respond if an employee contracts COVID-19 is essential. Likewise, employers should plan for how to respond to employees who are in vulnerable populations or are fearful of returning to work. Employers would also be well-served to assess factors competing with an employee’s ability or interest in returning to work, such as child or elder care responsibilities or generous unemployment insurance benefits.

This safe start kit represents guidance from local government, hospital, chambers of commerce, emergency management agencies, area businesses and subject matter experts. This guidance is intended to highlight key topics to consider as business leaders begin to re-open operations. Your individual facts and circumstances will be unique, and we encourage you to work with your preferred legal and financial advisors to adapt this guidance to your specific situation. As new information becomes available, we will send out any new guidelines and best practices that are released. We encourage you to keep this packet in a convenient location for easy reference and a home for all COVID-19 related information.

* Disclaimer: The COVID-19 virus is an ever-evolving landscape therefore any new regulations established by local or federal governments supercede any guidelines presented within.

MATERIALS CHECKLIST

1. CLOTH FACE COVERINGS
2. HAND SOAP
3. DISPOSABLE TOWELS
4. HAND SANITIZER
5. SANITIZING WIPES/SOLUTION
6. THERMOMETERS
7. GLOVES
8. SOCIAL DISTANCING SIGNAGE
9. BARRIERS WHEN APPLICABLE
Screen all employees reporting to work for COVID-19 symptoms with the following questions:
  • Have you been in close contact with a confirmed case of COVID-19?
  • Are you experiencing a cough, chills, muscle aches, shortness of breath, or sore throat?
  • Have you had a fever in the last 48 hours?
  • Have you had new loss of taste or smell?
  • Have you had vomiting or diarrhea in the last 24 hours?

Temperature screening employees:
  • Best practice: employers to take temperatures on-site ideally with a no-touch thermometer each day upon arrival at work.
  • Minimum: Temperatures can be taken before arriving. Normal temperature should not exceed 99.5 degrees Fahrenheit

**IMPORTANT** Direct any employee who exhibits COVID-19 symptoms (i.e., answers yes to any of the screening questions or who is running a fever) to leave the premises immediately and seek medical care and/or COVID-19 testing, per CDC guidelines. Employers should maintain the confidentiality of employee health information.
Best Practices

**PREPARE THE BUILDING**
Develop cleaning plans, conduct pre-return inspections, check HVAC & mechanicals, ensure safety of all workers.

**PREPARE THE WORKFORCE**
Decide who returns & when, create employee communication protocol, prepare & post reminders of social distancing & cleaning guidelines.

**CONTROL ACCESS**
Control entry points including deliveries, reconfigure gather & lobby areas for social distancing, install barriers as appropriate, & consider temperature screening.

**CREATE A SOCIAL DISTANCING PLAN**
Consider phasing based on roles & priorities, stagger arrival/departure times, alternate work weeks, limit in-person meetings, support 6ft office protocols, monitor space usage, & designate foot-traffic direction in busy areas.

**INCREASE CLEANING**
Reduce touch points, create touchless ingress/egress, supply work areas with disinfectants, restock food/beverage with single serve items, create clean desk policy, & regularly clean common areas.

**COMMUNICATE FOR CONFIDENCE**
Communicate transparently, recognize the fear in returning, listen/survey regularly, ensure leadership alignment, & clearly set employee expectations with an emphasis on security.

**BACK ON TRACK INDIANA**
5 Stages to get Indiana Back On Track. Learn more about the different stages and the associated dates to get a better understanding about where we’re going as a state. Governor Holcomb’s Roadmap To Safely Re-open Indiana backontrack.in.gov
LOCAL SOURCES FOR SUPPLIES YOU MAY NEED TO RE-OPEN

Please visit the Memorial Hospital and Health Care Center website at www.mhhcc.org for updates regarding COVID-19. This site includes the most current information including visitor restrictions, phone numbers to call if you have any of the COVID-19 symptoms, where to go to get a COVID-19 test, operational processes the Hospital is taking to keep you safe, status of elective surgeries and much more. The staff at Memorial Hospital remain committed to the health and safety of our patients and the communities we serve. We continue to make decisions based on the guidance from the Centers for Disease Control and Prevention, the Indiana State Department of Health and local health departments.
**Top 10 Tips to Protect Employees’ Health**

1. **Actively encourage sick employees to stay home.** Develop policies that encourage sick employees to stay at home without fear of reprisals, and ensure employees are aware of these policies.

2. **Have conversations with employees about their concerns.** Some employees may be at higher risk for severe illness, such as older adults and those with chronic medical conditions.

3. **Develop other flexible policies for scheduling and telework (if feasible) and create leave policies** to allow employees to stay home to care for sick family members or care for children if schools and childcare close.

4. **Talk with companies that provide your business with contract or temporary employees about their plans.** Discuss the importance of sick employees staying home and encourage them to develop non-punitive “emergency sick leave” policies.

5. **Promote etiquette for coughing and sneezing and handwashing.** Provide tissues, no-touch trash cans, soap and water, and hand sanitizer with at least 60% alcohol.

6. **Plan to implement practices to minimize face-to-face contact between employees if social distancing is recommended by your state or local health department.** Actively encourage flexible work arrangements such as teleworking or staggered shifts.

7. **Perform routine environmental cleaning.** Routinely clean and disinfect all frequently touched surfaces, such as workstations, countertops, handrails, and doorknobs. Discourage sharing of tools and equipment, if feasible.

8. **Consider the need for travel and explore alternatives.** Check CDC’s Travelers’ Health for the latest guidance and recommendations. Consider using teleconferencing and video conferencing for meetings, when possible.

9. **Provide education and training materials** in an easy to understand format and in the appropriate language and literacy level for all employees, like fact sheets and posters.

10. **If an employee becomes sick while at work,** they should be separated from other employees, customers, and visitors and sent home immediately. Follow CDC guidelines for cleaning and disinfecting areas the sick employee visited.

Tips to Improve Mental Health

COVID-19 illness can range from mild to severe. The virus usually spreads from direct person-to-person contact. It can also live on surfaces for many hours. Many people are struggling with basic decisions about how to go about their lives. A lot of people are anxious and fearful.

3 Basic Tips to Improve Your Mental Health Right Now

<table>
<thead>
<tr>
<th>Control What You Can</th>
<th>Limit Media Exposure</th>
<th>Self Care</th>
</tr>
</thead>
</table>
| Things that are in your control are your:  
  - **Thoughts**: try to remain positive in your thinking.  
  - **Feelings**: work to express these through journaling or talking with others, do not suppress these.  
  - **Behaviors**: control use of alcohol, tobacco, and other substances. Use positive coping skills.  
  **Take Care of You.**  |
| According to Psychiatric Times, media coverage has highlighted COVID-19 as a unique threat, rather than one of many, leading to panic, stress, and the potential of hysteria.  
  - If your attempt to stay connected is causing you additional stress, we recommend taking a break!  
  - It’s important to stay informed by checking reliable sources. Constant scrolling your social media feeds could just cause you more stress.  
  - Set limits on your media time.  
  - Don’t accept everything you read or hear.  
  - Avoid reading news right before bed.  
  **Reliable sources:**  
  - CDC-Centers for Disease Control and Prevention  
  - ISDH-Indiana State Department of Health  
  - WHO-World Health Organization  
  - Dubois County Health Department  |
| Now is the time to start establishing some healthy habits if you haven’t already. When we take care of our body, we optimize our ability to think clearly, solve problems, and manage our emotions.  
  **Have a strategy for day to day living:**  
  - Eliminate disruption of routines.  
  - Get good sleep.  
  - Eat regularly.  
  - Stay hydrated.  
  **Positive Coping Skills:**  
  - Deep breathing, meditation, journaling, exercise, hobbies (reading, sewing, gardening, etc.).  
  - Talking to others and leaning on positive support systems.  
  - Don’t be afraid to seek professional help. |

*Updated 4.30.2020*
Employee COVID-19 Safety Guidelines

Stay At Home When Sick
Stay home when feeling ill, when exposed to COVID-19 (e.g., positive household member case), or if diagnosed with a confirmed case of COVID-19. Employees who are particularly vulnerable to COVID-19 according to the CDC (e.g., due to age or underlying conditions) are encouraged to stay home.

Increase Hygiene Practices
Wash hands more frequently, avoid touching face, practice good respiratory etiquette, disinfect work areas and highly used touch points (e.g. doorknobs/handles, faucets, etc.).

Wear a Face Mask
Wear a cloth face covering (not an N-95 or medical mask, which should be reserved for healthcare workers) while at work and in public to help protect against the spread of the virus.

Practice Social Distancing
Practice recommended social distancing to the greatest extent possible - “Further is safer”.

Follow Employer Guidelines
Abide by guidelines established by the employer, which may include the use of gloves, social distancing practices in the workplace, and increased sanitation.

Employee Protection
Businesses should follow guidance issued by the Centers for Disease Control and Prevention, as well as, any applicable federal or regulatory requirements. Should an employee feel they are in an unsafe environment, contact your employer’s Human Resources department. If further assistance is needed, contact the Dubois County Health Department at 812.481.7050.
